# WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/EP2004/002099

|    | lox No. I Basis of the opinion  | _  |  |  |
|----|---|----|--|--|
| 1. | Vith regard to the language, this opinion has been established on the basis of the international application in the language in which it was field, unless otherwise indicated under this item.   |    |  |  |
|    | This opinion has been established on the basis of a translation from the original language into the following language, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).   | ıg |  |  |
| 2. | ith regard to any nucleotide and/or amino acid sequence disclosed in the international application and cessary to the claimed invention, this opinion has been established on the basis of:   |    |  |  |
|    | . type of material:   |    |  |  |
|    | ☐ a sequence listing  |    |  |  |
|    | □ table(s) related to the sequence listing  |    |  |  |
|    | . format of material:   |    |  |  |
|    | in written format   |    |  |  |
|    | ☐ in computer readable form   |    |  |  |
|    | time of filing/furnishing:  |    |  |  |
|    | □ contained in the international application as filed.  |    |  |  |
|    | filed together with the international application in computer readable form.  |    |  |  |
|    | ☐ furnished subsequently to this Authority for the purposes of search.  |    |  |  |
| 3. | In addition, in the case that more than one version or copy of a sequence listing and/or table relating there has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished. | to |  |  |
| 1. | dditional comments:   |    |  |  |

| ☑ The     | following document h   | as not bee  | n furnished  | d:  |  |  |  |
|-----------|--|---|--|---|--|--|--|
| δ         |  | application   | n whose pr   | riority has been claimed (Rule 43bis.1 and 66.7(a)).  |  |  |  |
|           | translation of the   | earlier appl  | lication who   | ose priority has been claimed (Rule 43 bis.1 and 66.7(b)).  |  |  |  |
| Con       | sequently it has not b<br>ertheless been establi   | een possib<br>shed on th  | ole to consi<br>e assumpt  | der the validity of the priority claim. This opinion has ion that the relevant date is the claimed priority date.   |  |  |  |
| has       | is opinion has been established as if no priority had been claimed due to the fact that the priority claim s been found invalid (Rules 43 <i>bis</i> .1 and 64.1). Thus for the purposes of this opinion, the international ng date indicated above is considered to be the relevant date.   |   |  |   |  |  |  |

#### Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Reference is made to the following documents:

- D1: DATABASE WPI Section Ch, Week 199713 Derwent Publications Ltd., London, GB; Class A26, AN 1997-140718 XP002281197 & JP 09 020540 A (SHINETSU CHEM IND CO LTD), 21 January 1997 (1997-01-21)
- D2: ZHUKOV M I ET AL: 'Polymer-mineral paste for strengthening ceramic tiles' CHEMICAL ABSTRACTS + INDEXES, AMERICAN CHEMICAL SOCIETY. COLUMBUS, US, vol. 96, no. 6, 8 February 1982 (1982-02-08), page 309 XP000060847 ISSN: 0009-2258

### Novelty

- 1.1) The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claims 1-8 is not new in the sense of Article 33(2) PCT.
- 1.2) The document **D1** discloses (see Abstract) shrinkage reducing additive for cementitious composition consisting of a polyoxyalkylene modified organopolysiloxane and compositions comprising the shrinkage reducing additive.

  The shrinkage reducing additives with the limitations of claims 2-5 of the present application appears to be disclosed in claim 3 of JP 09 020540.

  The subject matter of claims 1-5,7 is therefore regarded as not being novel over D1.
- 1.3) The document **D2** discloses (see Abstract) shrinkage reducing additive for cementitious composition consisting of organopolysiloxane and composition comprising the shrinkage reducing additive. The composition comprises also finely divided silica (sand).

The subject matter of claims 1,2,6-8 is therefore regarded as not being novel over D2.

### Inventive Step

2.1) It is remarked that even if some particular compounds disclosed in claims 2-5

presently on file may not be disclosed in D1, in the absence of a technical and/or surprising and/or unexpected effect and in view of the prior art, their selection is not regarded as involving an inventive step.

- 3) It is not at present apparent which part of the application could serve as a basis for a new, allowable claim. Should the applicant nevertheless regard some particular matter as patentable, an independent claim should be filed. The applicant should also indicate in the letter of reply the difference of the subject-matter of the new claim vis-à-vis the state of the art and the significance thereof.
- 4) In order to facilitate the examination of the conformity of the amended application with the requirements of Article 34(2)(b) PCT, the applicant is requested to clearly identify the amendments carried out, no matter whether they concern amendments by addition, replacement or deletion, and to indicate the passages of the application as filed on which these amendments are based (see also Rule 66.8(a) PCT). If the applicant regards it as appropriate these indications could be submitted in handwritten form on a copy of the relevant parts of the application as filed.
